

99.99% Ultra High Purity Alumina

Features:

- It is an alumina grade with extremely low impurities
- The purity is 99.99% (4N)
- Suitable for applications where impurities need to be restricted
- Suitable for applications that require high insulation resistance

Chemical composition	Measured value (%)
NA concentration	Less than 0.001%
K concentration	Less than 0.001%
Fe concentration	Less than 0.001%
Ti concentration	Less than 0.001%
