

# Integrated Manufacturing Expertise

## Precision Fabrication and Technical Expertise

Our expertise in the fusion of sewing and electronics technologies is your gateway to precision fabrication of specialized materials. We **specialize in cutting flame-resistant and heat-resistant fabrics, including glass cloth and glass felt**, utilizing state-of-the-art machinery, such as automatic cutting systems and laser cutting machines.

Our mastery extends to a range of **advanced sewing techniques**, including NC sewing with heater wire, utilization of various industrial sewing machines, and expertise in Velcro processing, grommet installation, and more. These capabilities enable us to manufacture an array of products, from pipe heating heaters to heat insulation and heat insulation material processing.
