What is the job at LuckDesign ?

- Work $\hat{=}$ "Some great person in the company decides the rules and does the work that comes down from above"?
- At LuckDesign...
- You create your own work and rules.
- Grow your business and grow yourself.
- \Rightarrow "Your growth is the company's growth"
- flat organization. An environment where you can learn the knowledge, know-how and attitude of top management. There are many sources of growth.

Diversity is the most important

- Currently, there are 4 employees of foreign nationality: 1 from Nepal, 2 from China, and 1 from Belgium.
- We plan to continue hiring regardless of Japanese, foreign nationality, or gender (working together toward the same goal, which means gathering together)
- Planning to strengthen overseas expansion.
- ⇒ Diversity is the source of our energy.

Business content

Semiconductor pre-process Development, design, and manufacturing of heaters for heating exhaust pipes

Manufacture of heater temperature control panels and fine ceramics
and their sales

Despite being a small company,
It is a company that provides manufacturing as a
manufacturer!

I will tell you more about it later

Corporate philosophy

1. A company that contributes to society through manufacturing

2. Spontaneous Creativity

= Unique company that develops, manufactures, and sells technology on its own

**In-house original development and manufacturing
Aiming to contribute to local communities, society,
and the world**

What we aim for Based on our philosophy

- 1. Heater business and fine ceramics business
Aiming for independent growth as a pillar**
- 2. Strengthen technology development and design
systems,Aiming to build a global production system**
- 3. Aiming to appeal to the global market and expand
the sales network**

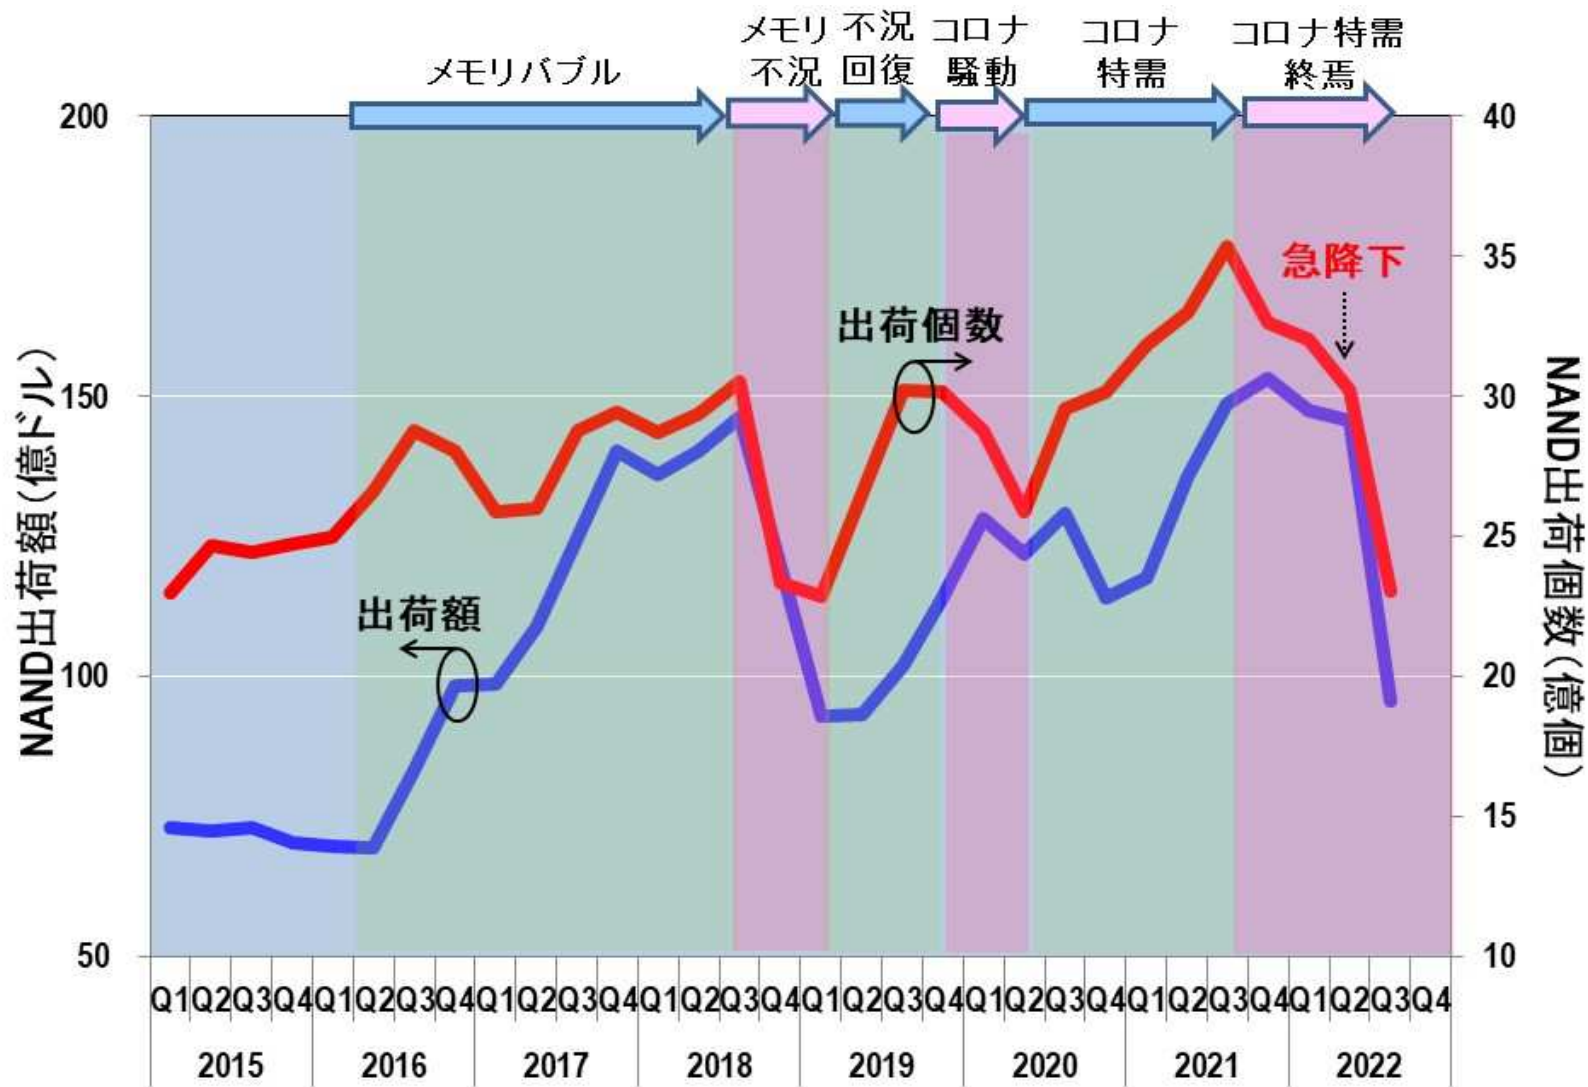

Our customer is a growing industry in the semiconductor industry

世界半導体の四半期毎の出荷額と出荷個数(～2022年Q3)

出所: WSTSのデータを基

Current Status of NAND January 2023

NANDの四半期毎の出荷額と出荷个数 (2015年Q1～2022年Q3)

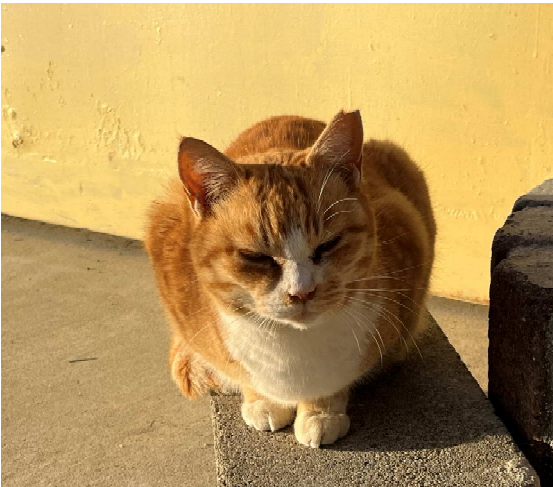

出所: WSTSのデータを基に

What kind of changes will there be in the near future?

- HV⇒PHV⇒EV⇒automatic driving
- All-solid-state Li-ion battery, 32 image sensors
- Edge computing, huge DC
- Smartphone ⇒ smart glasses (glasses)
- Miniaturization of electronic components
- metaverse
- Huge DC, fintech, communication changes
- smart city
- DX + GX, SDGs energy, changes in food and agriculture
- Evolution of AI and IoT
- Decrease work, increase work, change life

Being involved in a growing industry is essential for improving skills

- Talent shortage in growth industry
- A lot of exciting things happen in a growing industry
- hone your skills
- There are many business opportunities

SDGs Reduce energy consumption

↓ fine ceramics

↑ Piping heater

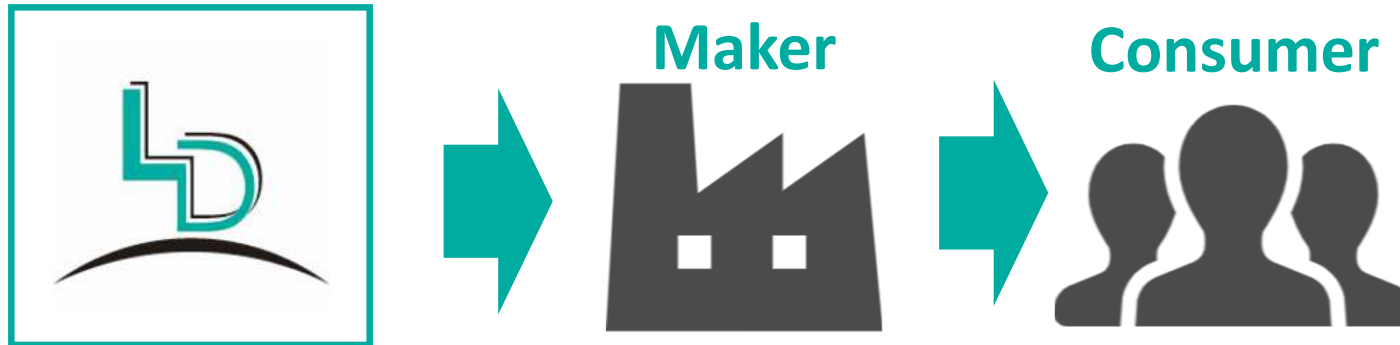

About customers

Provision of fine ceramic materials

Companies engaged in the ceramics processing industry in Japan, Korea, Taiwan, China, etc.

Heater provided

Provided to semiconductor manufacturing equipment manufacturers and semiconductor device manufacturers in Japan

5G, IoT, AI, smartphones and PCs, autonomous driving, robots, etc.

Our craftsmanship is used throughout Japan and around the world.

Contribute to advanced technologies and businesses that will grow in the future

PONT 

Customers are interested in energy reduction, durability, maintenance, etc.

because they often have problems

We cover and support with our technical capabilities.

What I want to achieve with you

Expansion of own brand business

However, we are still a start-up company.
Currently, the ratio of our own products is 70% for subcontracted manufacturing and 30% for our own brand.
By increasing the number of members who can give form to our unique products and technologies,
We would like to expand our own brand.

Increased productivity

What is your current manufacturing and technology?
3-4 years from now, it will be "a matter of course".
Just as "4G" is commonplace for everyone,
This is a business that will be greatly needed in the future.
<To produce more and better products>
I would love to work together on something like this.

3 reasons why you choose us

- Involved in a growing industry \Rightarrow Exciting and thrilling
- Aim for growth in the blue ocean global market while enjoying a peaceful and cozy country life.
- The reason for the "high manufacturing efficiency" that greatly outperforms other companies in the same industry is that the design capabilities are substantial. You will have the experience to extend your superiority even further. (skill up)

About recruitment

Job type

- Design/manufacturing job
- Sales job
- Please select the desired assignment from the two.

Design/manufacturing job

Design using CAD
Manufacture of existing products
Suggestions for improving production efficiency, etc.

< manufacturing professional >

It goes without saying that you are involved in the
design and manufacturing of
incorporating new cultures and technologies together
I hope you will!

Sales

Both domestically and internationally,
Proposals, adjustments, etc. for existing customers
Ultimately increase the number of new customers

< LuckDesign assault captain >

What the members worked hard to make
Conveying our products and technologies to more
people
We look forward to growing with you!

Welfare

So that everyone can work comfortably

Take a good rest on weekends and holidays ✕ About 123 days off per year

I believe that my work progresses only when I have OFF!

*Depending on the customer and business situation, we may ask you to come to work when absolutely necessary.

There is a housing allowance system

It is a peaceful area surrounded by nature.

If you want to live a leisurely life, please come to Miyama City!

*Conditions apply

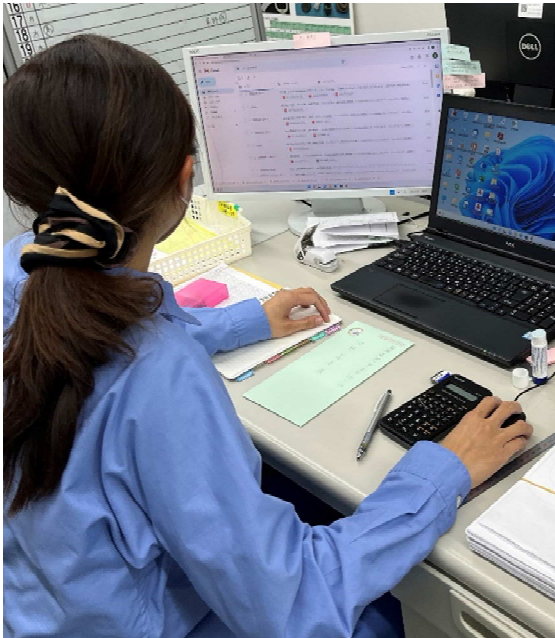

Car commuting OK

It takes about 25 minutes on foot from the nearest station, Setaka Station.

Most members go to work by car.

We also have a parking lot!

Company atmosphere

It is a workplace with a wide range of employees in their 20s to 60s and a high percentage of women.

Everyone is shy, so there aren't many pictures, but...lol
frank and frank

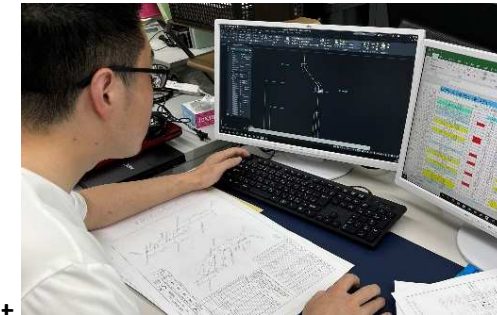

All members are very caring!

On the last working day at the end of the year,

The annual cleaning and mochi pounding

Because the distance between employees is quite close,

The company culture allows you to feel free to ask questions about anything you do not understand.

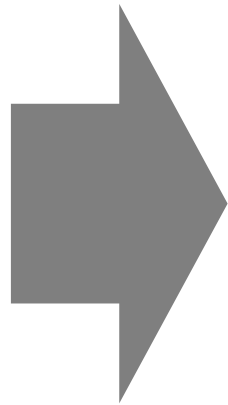

There is a coffee maker in the office.

At lunchtime, we often drink together and get together ♪
