

Thermal Insulation

Heat-Reflective Sheet + Melamine Sponge Heat Resistant up to 150° C

The Melamine Sponge (maximum 240° C, safe to use at 150° C) is lightweight (9.2 Kg/m³ for a size of 1m x 1m x 1m) and is a combination of a thermal insulation sheet (aluminum) bonded with silicone adhesive (heat resistant up to 200° C).

Easy to process and can be customized as shown in the photos (with accompanying videos).
