

Heat Shielding Bellows Curtain

Protecting People from Heat Sources for Comfort

The Thermal Insulated Snake Belly Curtain is highly effective at blocking both light and radiant heat (radiation = visible light, infrared, far-infrared, etc.).

By shielding from heat sources, it can create a comfortable environment. In places like factories, it can shield people from heat sources, allowing them to enjoy comfort.

Standard Specifications:

- Width = 1 meter
- Length = 3 meters
- Has eyelets (150mm pitch) at the top
- Equipped with jumper hooks on the sides (500mm pitch) for connecting to adjacent curtains.
